# Oamaru Stone & Concrete Cleaner Moss Killer

### 1.0 DESCRIPTION

Hypostat is a non-flammable solution of sodium hypochlorite which after application breaks down to salt, water and chlorine. It is used extensively for water chlorination and the cleaning of various hard surfaces including Oamaru stone, concrete etc. Its bleaching action helps whiten Oamaru stone and concrete surfaces.

## 2.0 DILUTION

Mix 2 parts of water to 1 part of Hypostat for the treatment of fungi, mould and moss.

### 3.0 APPLICATION

Apply with hand sprayer with course wetting nozzle covering 2 to 3 sq meters per litre, allow it to work for 15 minutes then rinse with hose and brush or medium pressure washer.

#### 4.0 HANDLING PRECAUTIONS

Sodium hypochlorite is non flammable but corrosive. Wear gloves, goggles and overalls when handling. Do not mix with other chemicals as this may release chlorine gas. Store Hypostat 135 in a cool dark area away from both food stuffs and acids. Never mix with acids. Rinse out containers with water after use.

#### 5.0 FIRST AID

Eye Contact – flush immediately with warm running water for at least 15 minutes.

Skin Contact – flush immediately with large quantities of water, remove contaminated clothing and wash down.

Ingestion – do not induce vomiting. Immediately drink large quantities of water, milk or milk of magnesia followed by egg whites. Call a doctor as soon as possible.

Availability: 20L and 200L quantities.
